---	---

- Trees are bare root stock.
- **The District cannot guarantee survival.**
- Payment must be received when you place your order. You will receive your order receipt in the mail. Please bring your receipt with you when you pick up your order

Fall can be an ideal time to plant.

Air temperatures tend to be more stable and soil moisture more predictable, both of which can enhance root development.

Fall planting is most successful in porous soils that are not prone to frost heave.

Upcoming Events

Deer Hunting at the ICD

Reserve your spot to lease the ICD property for the archery, firearm and/or muzzle loading season. Visit www.inghamconservation.com/hunting/ or call the office for more details.
